

Here at Carrington Farms, there is nothing more important to us than the health and wellbeing of our customers and our team members. We are monitoring the COVID-19 pandemic situation closely and are taking additional safety measures to protect our team members and customers. We felt it was imperative to share the steps we are taking to do our part while still providing exceptional service to our customers:

- We have increased the frequency of cleaning all surfaces where orders are processed.
- Hand washing for a minimum of 20 seconds prior to printing, picking, and packing of all orders.
- Wearing protective gloves and masks while handling all orders from beginning to end.

We are monitoring the situation very closely and have been following the guidance of our local health departments and the CDC and will take any necessary steps needed to adjust our fulfillment operations. Caring is at the heart of everything we do, and we can promise you that we will always put your and our team's safety first.

Our customer service department is open Monday through Friday 9am-5pm to answer any of your questions regarding our products. We can be reached at [customerservice@carringtonfarms.com](mailto:customerservice@carringtonfarms.com)

Thank you and stay safe!
